6398D/327
Red Double Dedicated Socket with Blue Double Pole Switch

6359/113
Combo White Socket with Red Single Pole Switches

"OUR HOSPITAL RANGE IS CONTINUALLY EXPANDING".

Due to the fact that the products are manufactured 100% in South Africa - from design and concept, through to the bending of steel and moulding of plastic, it is relatively easy for us to meet the demands of specifiers and installers, and we can adapt very quickly to market needs.

"The ease of installation of our range, being preassembled, is a big time saver. Previously the components were all modular and needed to be put together on site".

All products produced by Crabtree either carry the SABS mark or are approved for sale by the South African Bureau of Standards. **THIS ENSURES QUALITY, SAFETY AND RELIABILITY.**

DIAMOND

10301/113
